

ASSOCIATE PROJECT MANAGER LEVEL 4

Build professionals who deliver results

This programme equips learners to contribute to successful project delivery by planning, resourcing, scheduling and monitoring project activities, adapting to change, and ensuring objectives and benefits are achieved. Associate Project Managers play a vital role across sectors, working with diverse internal and external stakeholders to deliver projects that improve efficiency, effectiveness, and organisational performance. This apprenticeship strengthens your in house project capability, helping projects stay on track, on time and within budget. Learners develop practical skills to manage risks, assure quality, and communicate effectively with stakeholders, supporting better decision-making and smoother delivery. The result is improved project outcomes, stronger governance, and a more resilient workforce aligned to your business goals.

We launch new apprenticeship cohorts every quarter, providing regular opportunities for enrolment and progression – contact us at training@clearquality.co.uk or call 01709 918501.
