

# LEAN MANUFACTURING OPERATIVE LEVEL 2

## Learn Practical Skills for Advanced Manufacturing

The Lean Manufacturing Operative provides essential training designed to enhance both efficiency and quality across your manufacturing operations. Participants will gain a solid understanding of health, safety, and environmental controls, promoting a safer and more compliant workplace. The programme also equips employees with practical lean manufacturing techniques aimed at streamlining processes and improving productivity. In addition, it fosters continuous improvement through effective problem-solving and communication skills, ensuring smoother day-to-day operations. By developing these core competencies, your team will not only perform more effectively but will also play a key role in driving the overall growth and success of your business.

We launch new apprenticeship cohorts every quarter, providing regular opportunities for enrolment and progression – contact us at [training@clearquality.co.uk](mailto:training@clearquality.co.uk) or call 01709 918501.
