NET ZERO FOR YOUR BUSINESS

Course Overview

This 1-day course is designed to guide businesses through the journey towards achieving Net Zero carbon emissions. Participants will learn the key concepts of sustainability, how to measure and reduce their carbon footprint, and implement strategies to align their business with Net Zero goals. This course is ideal for businesses looking to understand their environmental impact and take meaningful steps toward sustainability. This course is perfect for business owners, managers, sustainability officers, and anyone involved in driving environmental initiatives within an organisation. It is suitable for businesses of all sizes and sectors looking to adopt a more sustainable approach.
