What Will I Learn?

- ✓ Apply project management principles to diverse projects, both external and internal, understanding their universal applicability.
- ✓ Execute crucial tasks during the tender stage, recognising their significance in project initiation.
- ✓ Define project success criteria, recognising variations among stakeholders, and engage in continuous improvement through launch meetings and post-project reviews.
- ✓ Identify and define project stakeholders, comprehending their roles for effective project collaboration.

What Skills Will I Gain?

- ✓ Acquire essential disciplines for efficient project execution, including organisation, planning, and execution skills.
- ✓ Recognise the importance of milestones and deliverables, mastering effective planning and monitoring techniques.
- ✓ Learn to measure project success using Quality, Cost, and Delivery (QCD) parameters, ensuring timely, budget-friendly, and quality-driven outcomes.
- ✓ Develop skills in risk analysis, seize opportunities, and master techniques for setting project baselines, tracking progress, and ensuring success through regular reviews.
